# Let's start

**I am going to explain this method as simple as possible. Just follow these 9 steps.**

## **Step 1:**

Firstly sign up here:

**<https://lootbits.io/?invite=1685197>**

This website pays Bitcoins for every box opened with gems. Also if anyone does free signup at your referral link you get around 35-38 gems (one gem to redeem for each box) Along with 30% amount of gems for every offer they complete.

The link above is my referral link, which by sign up will give you 50 gems instead of the original starting amount of 35 gems. P.S Gems are the most valuable resource in this method. That is the core of our money. (You can delete it but extra 15 gems are extra free money).

Automate opening of the boxes with the following script:

**<https://greasyfork.org/en/scripts/382073-lootbits-io/code>**

The above script is a tampermonkey script, tampermonkey is a browser extension usually used to automate simple user activity.

You can get it for Chrome here:

**<https://chrome.google.com/webstore/detail/tampermonkey/>**

Payment proof:

## **Step 2:**

Upload this PDF to the following site:

**<https://www.sejda.com/pdf-editor>**

At the site above edit/change the referral link of the pdf to your referral link. Your referral link can be found by clicking on the invite tab on the lootbits.io site.

## **Step 3:**

The best way now to spread our referral link is through distributing this PDF for free.

Do not worry, you're not being compelled to manually send this PDF to anyone ( You can if you want.).

## **Step 4:**

You may have heard of:

**<https://scribd.com/>**

Scribd.Com is a website that allows people to share and download e-books for free. Make sure that you simply transfer the PDF together with your referral link there.

You will gain about 30-100 downloads daily if you transfer the PDF together with your referral here.

## **Step 5:**

Another good website is:

**<https://www.slideshare.net/>**

Slideshare allows you to upload powerpoint presentations. Open your MS PowerPoint and paste all of the PDF info onto PowerPoint displays. Save the presentations and upload them to SlideShare. You will get 30-100 downloads daily if you upload the presentation with your referral link.

## **Step 6:**

A Listing of websites where you will be able to share free ebooks is found here:

**<https://merabheja.com/best-websites-to-download-free-ebooks/>**

Upload the ebook there for maximum referrals. Also, share your referral link to online marketing forums.

## **Step 7:**

Doing the steps above you will be obtaining like 3000-5000 or maybe a lot more downloads daily, and like half of the downloaders will join your referral.

This will make you 1-2 BTC easy. (You can probably earn a lot more money if you use more time to set up this auto-pilot)

**Step 8:**

Sit back and watch your cash rolling in.

**Step 9:**

Post your payment proof at the thread from wherever you got this ebook.

# GOOD LUCK!!!
